

# Labelkit MCD ONCOLOGY

## Safety in the Handling of Antiplastic Drugs

Labelkit Modular Cartridge (Picture 1) Dispensers of labels designed to offer safety in the handling of Antiplastic drugs. Oncology departments can use Labelkit system to enhance safety and adherence to therapy, reducing the risk of errors in critical doses to their patients.

Easily and promptly, thanks to the patented modular cartridge dispensers (Picture 3), preprinted colour coded labels can be applied.

The color coding helps to differentiate treatments, greatly reducing the chance of errors.

The LONG size labels have a double flap, one with an indication to the staff and the other for notes, date or initials of the operator.

Labelkit is a quick way to highlight the required treatments and to have the most important information of use clearly visible.
